Get to know Gledhills BoilerMate BP Cylinder

Gledhill BoilerMate Mains Pressure Hot Water Thermal Store Cylinder from the PlumbNation collection

The **Gledhill BoilerMate** is a Thermal Store Cylinder that will provide Mains Pressure hot water to suit Unvented and Open vented systems.

Gledhill BoilerMate - Features and Benefits:

- Can be used Unvented and Open vented.
- No need for safety controls and expansion vessels.
- Mains pressure hot water giving "power shower" performance.
- Up to 22 litres per minute filling a standard bath in 3-4 minutes.
- Increased efficiency & reduced running costs.
- No annual service required.

Mains pressure hot water thermal store for use with gas or oil boilers

The BoilerMate BP is an open vented thermal store that provides mains pressure hot water. The BoilerMate BP is suitable for use with either a gas or an oil boiler and the heating system can be either open vented or sealed. It is also suitable for upgrading existing traditional hot water systems.

BoilerMate BP thermal stores provide:

- Mains pressure hot water giving 'power shower' performance
- Up to 22 litres per minute filling a standard bath in 3-4 minutes
- A dry roof space eliminating the risk of freezing pipes/ tanks in winter
- Increased system efficiency, reducing running costs

Easy to install BoilerMate BP can be fitted to existing systems, including the existing boiler and controls, where appropriate. Unlike unvented cylinders, BoilerMate BP does not require expensive safety controls or the need to plumb temperature and pressure relief pipework to an

outside wall.

The BoilerMate BP thermal storage system is supplied with primary water from the boiler which heats the store via a primary coil. Secondary water flows directly from the cold mains into a secondary coil where it is heated by the store before being delivered to the taps.

BoilerMate BP thermal stores do not require any annual maintenance. The product fully complies with the HWA (Hot Water Association) specification for thermal stores and is fully 2010 Part L1A (new build and refurbishment) compliant.
