6. Plasters – Plastering service
7. Decorating service
8. Painter – Painting service
9. Roofers - Roofing service
10. Interior designers – Interior design
11. Building, home refurbishment

Knowledge About Tiling

A tile is a manufactured piece of hard-wearing material such as [ceramic](#) , [stone](#) , metal, or even [glass](#) .

Tiles are generally used for covering [roofs](#)

,
[floors](#)

,
[walls](#)

, showers, or other objects such as tabletops. Alternatively,

tile

can sometimes refer to similar units made from lightweight materials such as [perlite](#)

,
[wood](#)

, and

[mineral wool](#)

, typically used for wall and ceiling applications. Less precisely, the modern term can refer to any sort of construction tile or similar object, such as rectangular counters used in playing games (see

[tile-based game](#)

). The word is derived from the [French](#)

word

tuile

, which is, in turn, from the

[Latin](#)

word

tegula

, meaning a roof tile composed of fired clay.

Tiles are often used to form [wall](#) and [floor](#) coverings, and can range from simple square tiles to complex [mosaics](#) . Tiles are most often made from porcelain, fired clay or ceramic with a hard glaze, but other materials are also commonly used, such as [glass](#) , metal,

cork, and stone. Tiling stone is typically marble, onyx, granite or slate. Thinner tiles can be used on walls than on floors, which require thicker, more durable surfaces.
